Bobcat Excavator / Backhoes

Models	316 (5'1" Dig)	325 (8'-4" Dig)	329 (10'-2" Dig)
Swing	Conventional	Conventional	Conventional
Engine Make/ Model	Kubota / D722-EB	Kubota / D1703-M-E2B	Kubota / D1703-M-E2B
Horsepower (H.P.)	9.9 HP	27.7 HP	27.7 HP
Fuel Tank	2.4 Gal	14.1 Gal	12.3 Gal
Max Governed RPM	2000	2200	2200
Performance			
Operating Weight lbs	1676	6145	7098
Rated Lift Capacity (overblade@ground level)	497	1249	2038
Weight Class	0.76 t	2.7 t	n/a
Travel Speed - High/Low	1.2 / 1.2 mph	1.9 / 1.2 mph	1.9 / 1.2 mph
Arm Digging Force	1323 lbs	2820 lbs	3844 lbs
Bucket Digging Force	1874 lbs	4766 lbs	6866 lbs
Boom Swing - Left	87 deg	90 deg	90 deg
Boom Swing - Right	47 deg	50 deg	50 deg
Maximum Dig Depth	5'1" (61 in)	8'5" (100.6 in)	10'2" (122.1 in)
Max Dump Height	6'7" (79.1 in)	9' (109.41 in)	10'1" (121.6 in)
Maximum Reach at Ground Level	9' (108.5 in)	13' 7" (166.66 in)	16' (191.9 in)
Auxiliary Std Hydraulic Flow	5.4 GPM	12.3 GPM	14 GPM
Dimension			
Overall Length in Travel Position	9' 5" (114.7 in)	13' 7" (165.2 in)	16' (192.1 in)
Track / Machine Width	27.6 -35.4" in	4' 6" (55 in)	5'1" (60.63 in)
Cab Width	31.3"	4' 6" (55 in)	5'1" (60.63 in)
Height	7' 1" (84.8 in)	7' 8" (92.8 in)	7' 8" (92.8 in)
Description	The 316 ultra-compact excavator goes where other excavators can't! The 316's retracted track width of 27.6 inches permits entry to areas previously inaccessible to compact excavators. Once access has been obtained, the undercarriage can be expanded to a width of 35.6 inches for increased performance.	Here's a multi-purpose machine able to work in spaces where larger excavators would never fit. The 325 -- with its multi-attachment versatility -- can dig everything from trenches to postholes, break up concrete and carve landscape features. Its compact size and rubber track flotation allow it to work in muddy conditions and overcome weight restrictions.	The Bobcat 329 excavator offers performance, comfort and reliability in a mid sized compact excavator. The 329's dual outlet, torque limiting piston pump provides smooth, predictable control for operators of all experience. The 329 provides easy to operate, "finger-tip" control of auxiliary hydraulics, for precise control of attachment such as the Hydraulic Clamp. The 329 is equipped with Bobcat's exclusive Engine and Hydraulic Monitor system, sensing vital machine functions to protect your investment. The 1/4" exterior shell and tailgate protect against damage to the machine, even in the most demanding applications.

Ask about other attachments for backhoes along with our loader/backhoe models (CASE 580 14'5" digging depth)
